INTRODUCTION

Today's Webinar:

PURPOSE: To provide information on ABC Green Building Toolbox Training

OUTCOME: To drive "Green" education to the craft worker *and* provide a vehicle for broad organizational learning

WHAT is available to ABC Members

The comprehensive program includes everything needed to get started:

- Set of 52, 15-minute, printable, online PDFs for use as Toolbox Talks on construction sites
- "Train the Trainer" online education modules to equip supervisors and foremen with the skills to present Toolbox Talks on the jobsite

WHAT is available to ABC Members

Each of the 52 talks address green construction methods associated with LEED® Certification:

- Sustainable Sites
- Water Efficiency
- Energy and Atmosphere
- Materials and Resources
- Indoor Environmental Quality
- Innovation and Design Process
- Regional Priority Credit

WHAT is available to ABC Members

“Train the Trainer” online education modules include:

- Welcome Tutorial
- Introduction to Library of Toolbox Topics
- Preparing for a Toolbox Talk
- Learning Styles
- Components of a Toolbox Talk
- Connecting to the Topic
- Selecting a Toolbox Environment
- Delivering a Toolbox Topic
- Toolbox Talk Tips
- Review and Check
- Toolbox Talk Checklist

WHO should use the GREEN TOOLBOX TALKS

Any ABC Member Company

To educate craft workers and front line
supervision about
Green Construction Principles

WHERE is this information available to ABC Members

ONLINE Purchase at:

www.GreenConstructionAtWork.com/ToolboxTalks

BENEFITS of GREEN TOOLBOX TALKS

- Gain a better understanding of green construction practices associated with LEED® certification
- Improve productivity and profitability
- Understand the impact contractors have on a green building project
- Understand owners' green building goals and how contractors can support the owner

BENEFITS of GREEN TOOLBOX TALKS

- Enhance leadership skills of supervisors and foremen
- Increase morale among employees
- Continuing education hours for LEED® APs and Green Associates seeking credential maintenance
- Satisfy the education and training requirements for ABC Green Contractor Certification

HOW is this information available to ABC Members
